

HTR-SW

Setting tool for screw anchor

self-decoupling assembly tool

- with patented bit finding

Properties

- easy handling
- particularly economical
- efficient, time-saving setting times
- long service life due to robust design

Applications

- for surface-flush mounting of the akurit HTR-M screw anchor

Substrate

Pretreatment

- Check the adhesion of the insulation boards. Non-adhesive or defective insulation boards must be replaced.
- Drill the hole at right angles to the surface.
- Drill the hole approx. 10 mm deeper than the minimum anchoring depth.
- The drill hole must be free of drilling dust.

Processing

Applying / Processing / Assembling

- Place the setting tool on the screw of the anchor and screw in using a drill driver with appropriate force and sufficient pressure.
- When correctly seated, the setting tool disengages automatically.

Notes

- The tool is to be used exclusively for the akurit HTR-M screw anchor.

Storage

- Store dry and as per instructions.

General notes

This information sheet provides only general recommendations. Should you have any queries relating to a specific application, please contact our technical sales advisor or call our hotline: +49 541 601-601. All of the details given are based on our current knowledge and experience and on the assumption that the materials are professionally applied and used for their normal purpose. All of the details are non-binding and do not release users from their duty to undertake their own tests to ensure suitability for the intended application. Due to the effects of different weather, processing and construction site conditions, no guarantee can be given for the general validity of all details. We reserve the right to make changes as a result of further development of the product and applications engineering. The general rules for construction engineering, the valid standards and guidelines, and the technical working guidelines must be observed. The publication of this technical data sheet renders all previous editions of this data sheet void. Please obtain the latest information from our website.
