

HADALAN® EPV 38L

Solvent mixture/thinner for solvent-based products

These pictograms apply to the **basic product**. Deviations are possible depending on the area of application and processing.

PRODUCT INFORMATION

Description

HADALAN® EPV 38L is a universally applicable solvent mixture.

Application

= for dissolving impurities, adjusting the viscosity of PU systems and cleaning tools

Operational area

- Polyurethane and epoxy resin products
- HADALAN® and DAKORIT® products

Technical Data

Available container sizes	10 l/sheet metal canister
Density	0,89 kg/l
Storage	24 months
Consumption	depending on application

Applying

- HADALAN EPV 38L can be used to clean processing equipment and solvent-resistant substrates as long as the material to be removed has not yet hardened.
- When thinning, HADALAN EPV 38L is added to the material to be thinned while stirring constantly. The quantity can be found in the respective data sheet.

NOTES

To be observed

- If used indoors, ensure adequate ventilation.
- Contains flammable solvents.
- Use suitable protective gloves, safety goggles and splash protection.

Ingredients

organic solvents

Occupational safety / Recommendation

This product contains flammable solvents. Ensure adequate ventilation during processing. Avoid intensive inhalation of the vapors. Do not allow to enter sewers or groundwater Further information on safety during transportation, storage and handling can be found in the current safety data sheets.

Disposal

The following applies to all systems: Only return empty containers to recycling partner Interseroh. Material residues can be disposed of according to EWC code no. 14 06 03 (other solvents and solvent mixtures).

Producer

Sievert Baustoffe SE & Co. KG

Mühleneschweg 6, 49090 Osnabrück Tel. +49 2363 5663-0, Fax +49 2363 5663-90 hahne-bautenschutz.de, info-hahne@sievert.de The statements are made based on extensive tests and practical experiences. They cannot be applied to every application case. Therefore, we recommend carrying out application trials if necessary. Subject to technical changes in the course of further development.
